

Moeve and Naturgy launch Plan Multienergy, the market's best offer in mobility, electricity, and gas

- **With the Plan Multienergy, Moeve and Naturgy customers can save up to 30 cents per liter on each refueling, which they can then use as a discount on their Naturgy bills or at Moeve service stations. By paying with the Moeve gow Mastercard, savings can reach up to 40 cents per liter**

Moeve and Naturgy have teamed up to launch the "Multienergy Plan," an offer that provides customers the biggest savings on the market* by combining fuel purchases and electric charging at Moeve service stations with Naturgy electricity, gas, maintenance, or solar contracts. This promotion kicks off tomorrow, June 17, and is available to both existing customers (4 million electricity and gas users with Naturgy and 4.6 million Moeve gow users) as well as new customers.

This partnership combines the energy solutions of both companies, offering customers greater savings based on their contracted services. For example, combining an electricity or gas contract with fuel purchases earns a 10-cent discount per liter. Add Naturgy's maintenance service, and that saving rises to 15 cents per liter. When you combine maintenance with both electricity and gas supply, the discount grows to 20 cents per liter. And the biggest savings — 30 cents per liter — come when you also install solar panels with Naturgy.

To encourage sustainable mobility, this offer also lets customers save up to 15 cents per kilowatt-hour on ultra-fast electric charging at Moeve service stations, provided they have energy, maintenance, and solar panel installation services with Naturgy.

These offers are compatible with the Moeve gow Mastercard, allowing customers to accumulate up to 40 cents per liter in Moeve gow refuel credit when paying with the card recently launched by Moeve and Bankinter.

All the savings earned through the Multienergy Plan are converted into Gow credit, which customers can use to pay at Moeve/Cepsa service stations or deduct from their Naturgy bills. Customers can track their balance in both the Moeve and Monedero Naturgy apps.

**Compared to other offers currently available on the Spanish market*

Carlos Vecino, General Manager of Marketing at Naturgy, stated that “with the Plan Multienergy from Moeve and Naturgy, we want to reward customers who trust Naturgy with their energy and maintenance needs by offering them everyday benefits—both at home and on the go”.

Pierre-Yves Sachet, Director of Mobility at Moeve, added, “At Moeve, we remain committed to delivering the best solutions to our customers through the most competitive multi-energy offer on the market. This partnership with Naturgy, a leader in the home energy market, is part of our shared commitment to working together for the benefit of our customers”.

Customers can sign up for the Plan Multienergy by visiting www.planmultienergy.es. It will also be available across all Naturgy channels and at every Moeve service station.

Contracted plan	Fuel savings	Electric charging savings
Car + Electricity or Gas	10 cents/l	6 cents/kWh
Car + Electricity or Gas + Maintenance Service	15 cents/l	8 cents/kWh
Car + Electricity + Gas + Maintenance Service	20 cents/l	11 cents/kWh
Car + Electricity + Gas + Maintenance Service + Solar	30 cents/l	15 cents/kWh

About Naturgy

Naturgy is a company with more than 180 years of history providing solutions for the progress of society. It forms a group dedicated to the generation, distribution, and marketing of energy and services. The company is present in more than 20 countries, with its main operations in Spain, Latin America, the United States, and Australia.

Naturgy supplies gas and electricity to nearly 16 million customers globally in regulated and liberalized markets, having established itself as the leading gas supplier nationwide and also holding a leading position in the electricity sector. In Spain, it also provides users with energy solutions and maintenance and repair services. In the electricity generation business, the company has an installed capacity of 17.9 GW and a diversified generation mix.

Naturgy's business model is committed to the sustainable development of society, guaranteeing the supply of competitive, safe, and environmentally friendly energy, and investing in renewable energies and gases.

About Moeve

Moeve is a global company comprising over 11,000 employees, committed to sustainable energy and mobility, with the ambition to drive Europe's energy transition and accelerate decarbonisation both within the company and for its customers

After leading the energy sector as Cepsa for more than 90 years, the company launched its new brand, Moeve, in October 2024. This new identity reflects the acceleration of its transformation to lead in the production of sustainable energy powered by green molecules, including green hydrogen and second-generation biofuels, as well as sustainable chemical products. It is also developing an extensive network of ultrafast electric chargers in Spain and Portugal to boost sustainable mobility.

Through its 2030 *Positive Motion* strategic plan, Moeve is working to transform mobility and energy to create a better world, ensuring today's energy supply while focusing on sustainable energy solutions for the future.
